# Vibration of God-names

1. Stand with arms outstretched.
  2. Breathe in deeply through the nostrils, imagining the name of the God desired entering with the breath.
  3. Let that name descend slowly from the lungs to the heart, the solar plexus, the navel, the generative organs, and so to the feet.
  4. The moment that it appears to touch the feet, quickly advance the left foot about twelve inches, throw forward the body, and let the hands (drawn back to the side of the eyes) shoot out, so that you are standing in the typical position of the God Horus, and at the same time imagine the Name as rushing up and through the body, while you breathe it out through the nostrils with the air which has been till then retained in the lungs. All this must be done with all the force of which you are capable.
